Free estimates: (877) 377-1274

Now Available: Pro Grade Odor Control Services for Institutions.

Uncontrolled odor costs managers of institutional commercial and residential real estate time and money. With Mid Ohio you get quick and effective odor control solutions to make your real estate occupation-ready with minimal time and disruption.

Advances Odor & Pathogen Control Science

Mid Ohio uses a patented Clo₂ -based system that delivers significantly superior results on more types of odor and pathogen control jobs than ever before. Nothing is more effective than Clo₂ (chlorine dioxide) for controlling odors. Guaranteed.

Ecologically Safe

Not another bleach or harsh chemical, Clo₂ has been used for public water system purification and other large scale projects for decades. It is safe and cost-efficient for any size job. There are no carcinogens or poisonous residuals and never a harmful chemical footprint.

Let Us Do The Work and Free Your Team from Distractions
